EDUCATION

Cambridge A Level

Hilbright Science College

2017-2019

Mathematics
Physics
Chemistry
Computer Science

BSC Information Technology

Chinhoyi University of Technology

2022-Present

WEB DEVELOPMENT SKILLS

- HTML
- CSS
- JavaScript
- Php
- React (Next js)
- Git
- Unit Testing
- Responsive Designing
- APIs Intergrations
- Deployment and Maintanance

PROFILE

With a comprehensive skillset encompassing JavaScript, React, Node.js, MongoDB, CI/CD environment, and Agile/Scrum methodology, I am a versatile fullstack developer equipped to tackle diverse projects. My exceptional communication and collaboration abilities foster seamless teamwork, enabling me to align with cross-functional teams to achieve shared goals. Thriving in dynamic, fast-paced environments, I am driven to consistently deliver high-quality work that exceeds expectations. A passionate technologist, I continuously seek new learning opportunities to expand my knowledge and refine my skills. As a dedicated and adaptable developer, I am committed to producing timely, impactful results. Recognized for my collaborative spirit and rapid learning aptitude, I am eager to contribute meaningfully to any team. My willingness to embrace new technologies and adapt to changing circumstances, coupled with my unwavering commitment to excellence, makes me an invaluable asset to any organization seeking a skilled fullstack developer.

WORK EXPERIENCE

Junior Developer

Ferno Digital Marketing

2020-2021

- Designed, developed, and implemented interactive web applications using React JS and TypeScript.
- Created and maintained cross-platform mobile applications using React Native.
- Developed robust and scalable back-end services using Laravel and Node.js.
- Utilized Kotlin to build high-performance Android applications.
- Followed Agile methodologies to deliver projects efficiently and effectively.
- Collaborated with designers and product managers to translate requirements into functional applications.
- Wrote clean, maintainable, and well-documented code adhering to industry best practices.
- Conducted thorough testing to ensure the quality and performance of applications.

ROLAND MUNGURE

SOFTWARE DEVELOPER

ANDROID DEVELOPMENT SKILLS

- Java
- Kotlin
- Android SDK and APIs
- Android Studio IDE
- XML layouts
- Android native UI components
- MVVM, MVP architecture patterns
- Performance Optimization:
Performance, memory usage,
battery efficiency optimization
- Testing and Debugging: JUnit,
Espresso testing frameworks

NATIVE DEVELOPMENT SKILLS

- Dart (Flutter)
- JavaScript (React Native)
- iOS and Android native UI
components and APIs
- Performance and Architecture
- Jest, Detox testing frameworks

SOFT SKILLS

- Communication and Collaboration
- Problem-solving and Critical
Thinking
- Adaptability and Learning Agility
- Attention to Detail and Quality
Assurance
- Self-motivation and Initiative

PROJECTS

Loan Management

Company name

2020-2022

- Designed and developed a comprehensive loan management system using HTML, CSS, and JavaScript for the frontend and PHP with MySQLi for the backend.
- Created an intuitive and user-friendly interface for loan applications, loan tracking, and repayment management.
- Implemented secure authentication and authorization mechanisms to protect sensitive financial data and maintain system integrity.
- Integrated real-time loan status updates and notifications to keep borrowers informed and ensure transparency.
- Automated loan approval and disbursement processes to streamline loan processing and improve efficiency.
- Developed comprehensive reporting and analytics tools to provide insights into loan performance and risk management.
- Designed and implemented a scalable and secure backend infrastructure capable of handling large volumes of loan data and user transactions.
- Adhered to industry best practices for data security and ensured compliance with relevant financial regulations.

TikTok Clone

- Developed a full-fledged TikTok clone using Nuxt.js for the frontend and Laravel for the backend.
- Implemented real-time video streaming and playback functionality using WebRTC.
- Designed and built a user-friendly interface with a focus on user engagement and interaction.
- Integrated social media features, including user profiles, video sharing, and following.
- Managed the project from conception to deployment, ensuring adherence to coding standards and best practices.

Hospital System

- Developed a comprehensive hospital management system using HTML, CSS, and JavaScript for the frontend and PHP with MySQLi for the backend.
- Created an intuitive and user-friendly interface for patient registration, appointment scheduling, and medical record management.
- Integrated secure authentication and authorization mechanisms to protect patient data and maintain system integrity.
- Implemented real-time data updates and notifications to ensure efficient communication between staff members.
- Designed and implemented a robust backend infrastructure capable of handling large volumes of data and user interactions.
